OFFICER'S RETURN.

NORFOLK, ss.

NEEDHAM, Feb. 23, 1901.

By virtue of this warrant, I have this day notified and warned the inhabitants of the Town of Needham to meet as within directed, by posting true and attested copies of this warrant in twenty public places within said town, seven days before the time of holding said meeting.

JOHN W. CRISP,
Constable of Needham.

A true copy of warrant and officer's return.

Attest: THOMAS SUTTON,
Town Clerk.

Record of Annual Town Meeting

MARCH 4, 1901.

Pursuant to the foregoing warrant, a meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held in the town hall, in said town, on Monday, March 4, A. D. 1901.

The meeting was called to order by the town clerk a thirty minutes past six o'clock in the forenoon. Voted to omit reading the warrant.

Officer's return read.

ART. 1. Winthrop M. Southworth and John W. Jones were appointed tellers to assist in checking the names of voters and counting the ballots for moderator, and they were sworn to the faithful discharge of their duties by the town clerk.

Whole number of ballots cast, thirteen. William Moseley had one, and Emery Grover had twelve, and Emery Grover was declared elected moderator.

ART. 3. Voted to proceed to ballot for town officer, as follows, viz: One town clerk for one year, three selectmen for one year, three overseers of the poor for one year, three assessors for one year, one town treasurer for one year, one collector of taxes for one year, one auditor for one year, two constables for one year, one member of the

school committee for three years, one water commissioner for three years, two trustees of the public library for three years, one park commissioner for three years, one tree warden for one year, and upon the same ballot to vote "yes" or "no" upon the question: "Shall licenses be granted for the sale of intoxicating liquors in this town?"

The selectmen having appointed John W. Jones, Winthrop M. Southworth, Charles H. Newland and Henry T. Childs as ballot clerks, they were sworn to the faithful discharge of their duties by the town clerk.

The ballots prepared for use at this election by the town clerk were then delivered by him to the presiding officer and his receipt taken therefor.

Cards of instruction and specimen ballots were then posted as required by sec. 211 of chap. 548 of the Acts of 1898.

The ballot box furnished by the commonwealth for use at elections was publicly opened by the moderator and shown to be empty. The box was then locked and the keys delivered to John W. Crisp, the officer in attendance.

The polls were opened at forty-four minutes past six o'clock in the forenoon, and were kept open until thirty-seven minutes past five o'clock in the afternoon; when, as the meeting had previously voted, they were closed.

At the opening of the polls the ballot box register stood at 0 0 0.

Voted to defer action on all articles except article three, for the election of officers, until thirty minutes past seven in the afternoon.

of the amount is received, and when three-fourths of the amount is received, and the balance of pay when the full amount has been collected.

If, in the judgment of the collector, that in consequence of removal, or any other circumstance, any tax should be collected before the first of October, he is fully authorized to serve his warrant in the collection of such tax at any time. The collector shall guarantee the full amount of all taxes legally assessed and committed to him for collection, and shall be held to pay the town treasurer the same, with any interest that may accrue thereon (except such sums as may be abated by the assessors); he shall pay the said taxes and interest from time to time, as he collects the same, and shall pay the full amount of all taxes committed to him, with the accrued interest, on or before the first day of April, 1902. The compensation of the collector shall be one per cent. on all taxes and interest collected by him and paid to the treasurer.

Art. 3. After the result of the voting had been declared, the ballots cast, the undistributed ballots and also the check lists were sealed up and endorsed by the election officers and placed in the custody of the town clerk.

Voted to adjourn to two weeks from to-night, Monday, March 18, 1901, at 7.30 P. M.

Town Clerk.

RECORD OF THE

Adjourned Annual Town Meeting

MARCH 18, 1901.

Pursuant to adjournment, the inhabitants of the town of Needham, qualified to vote in elections and town affairs, met in the town hall in said town, on Monday evening, March 18, A. D. 1901.

Emery Grover, moderator, in the chair.

ART. 2. The committee appointed at the town meeting held March 4, 1901, to consider the subject of appropriations called for under articles 8, 9, 10, 11, 12, 13, 14, 15, 19, 20, 25, and 27, submitted their report, and it was voted to take up each article separately and act thereon.

Edgar H. Bowers, chairman of the board of selectmen, made the following report in regard to the drainage of Highland avenue:

"The selectmen beg leave to submit the following report in regard to the drainage of Highland avenue and adjacent streets. It is well known that said drain collects the surface water from Highland avenue in Highlandville and discharges the same through the land of the heirs of Sherman Bowers into a natural gorge which opens on Hillside avenue, and through a culvert under said avenue to the valley below, said gorge is being used as a dumping ground, and is now the property of Caroline Barratt. It

seems to the board of selectmen, and can be made apparent to any observer, that it is necessary to protect and preserve the outlet to that drain if it is to continue to serve its purpose; and as the best way to that end, we recommend that the town purchase of Mrs. Barratt the necesary land covered by said gorge, in order to control and preserve the outlet."

ART. 8. Voted that the sum of sixty-two hundred dollars ($6200,) and the amount received from the street railway tax be appropriated for the construction, maintenance and repairs of highways, townways, concrete gutters and bridges.

Voted that the sum of two thousand dollars ($2000) be appropriated for sidewalks.

Voted that a committee of nine be appointed, to consist of the board of selectmen and William Carter, C. E. Stanwood, Leonard Dawson, Watson W. Bowes, Armand J. Mathey and Francis de M. Dunn to consider the subject of a systematic layout and improvement of sidewalks and crosswalks, and to ascertain as far as possible the probable average cost per mile of a well-graded concrete sidewalk, and the feasibility of issuing bonds or notes of the town to defray the expense thereof, and report thereon at the next town meeting.

ART. 9. Voted that the sum of fourteen thousand five hundred and twenty-seven dollars ($14,527) be appropriated for schools; including teaching, fuel, care of buildings, incidentals, books, supplies and salary of the school superintendent.

Voted that the tuition received from non-resident pupils be applied to such school expenses as the school committee may direct.

ART. 10. Voted that the sum of three hundred dollars

($300) in addition to the dog tax, be appropriated for the maintenance of the public library.

ART. 11. Voted that the sum of thirty-seven hundred dollars ($3700) be appropriated for the relief and support of the poor.

ART. 12. The following appropriations were voted under this article, each item being voted upon separately, viz:

For maintenance of electric lights, twenty-nine hundred dollars ($2900).

For carrying out the agreement made by the town with Mary A. Murphy, two hundred and seventy-five dollars ($275).

For removal of snow, five hundred dollars ($500).

For the enforcement of liquor law, one hundred dollars ($100), and the selectmen shall cause it to be enforced.

For printing and stationery, three hundred dollars ($300).

For the care and rent of town hall, the receipts and eight hundred and fifty dollars ($850).

For incidental expenses, ten hundred and fifty dollars ($1050).

For state aid, four hundred and twenty-two dollars ($422).

For soldiers' relief one hundred and thirty dollars ($130).

For maintenance of the fire department eight hundred and fifty dollars ($850).

For incidentals for the fire department, two hundred and fifty dollars ($250).

For salaries of engineers of the fire department, one hundred and fifty-six dollars)$156).

For the purchase of new hose, three hundred and fifty dollars ($350).

For the fire alarm service, four hundred dollars ($400).

For police service, the fines and one thousand eight hundred and fifty dollars ($1850).

For salaries of town officers, twenty-six hundred dollars ($2600).

For abatement of taxes, three hundred dollars ($300).

For hydrant service and other public use of water, twenty-seven hundred dollars ($2700).

Voted that the sum of two hundred and fifty dollars be appropriated for the purchase of land of Caroline Barratt to protect the outlet of our system of drainage from Highland avenue and instruct our town treasurer to take a deed therefor.

ART. 13. Voted that the sum of one hundred and fifty dollars ($150) be appropriated for the observance of Memorial Day.

ART. 14. Voted that the sum of two hundred and fifty dollars ($250) be appropriated for the care and improvement of parks and public grounds.

ART. 15. Voted that the sum of two hundred dollars ($200) be appropriated for use of the tree warden.

ART. 19. Voted that the subject matter of this article be referred to the selectmen, to investigate and report at the next town meeting.

ART. 20. Voted that the salary of the auditor be one hundred dollars per annum.

ART. 23. Voted to rescind that portion of the vote passed at the last town meeting under this article, authorizing the water commissioners to issue bonds for the extension of the water service.

Voted unanimously that the money necessary for the extension of the water works system under this article, be

raised by the sale of "Needham Water Loan Bonds;" authorized by vote of the town, passed March 15, 1898, and by acts of the Legislature, approved May 13, 1898.

ART. 25. Voted that the sum of two hundred dollars ($200) be appropriated to have a map made of the town, showing the location of all poles, located in the town, whether owned by the town or any corporation or individual.

ART. 27. Voted to extend the water service on Greendale avenue from the junction of High street to Cheney street.

Voted unanimously that the money necessary for the extension of the water works system, under this article, be raised by the sale of "Needham Water Loan Bonds;" authorized by vote of the town, passed March 15, 1898, and by acts of the Legislature, approved May 13, 1898.

ART. 28. Voted unanimously that the town treasurer be authorized, with the approval of the water commissioners, to borrow on temporary loan such sums of money as may be necessary in anticipation of issuing its Water Loan Bonds, the same to be paid therefrom.

Voted that the selectmen be instructed to appoint an inspector of wires as authorized by chap. 337 of the Acts of 1899.

At 11.03 P. M., voted that the meeting be dissolved.

Dissolved.

Attest: THOMAS SUTTON,
Town Clerk.

Record of General Election.

November 5, 1901.

In pursuance of the foregoing warrant, the inhabitants of the town of Needham, qualified to vote in state elections, met in the town hall in said town, on Tuesday, the fifth day of November, in the year one thousand nine hundred and one, at six o'clock in the forenoon, and were called to order by Edgar H. Bowers, chairman of the board of selectmen, who read the warrant for calling said meeting, and the return of the officer who notified and warned the inhabitants.

The selectmen having previously appointed Armand J. Mathey, Winthrop M. Southworth, Thomas R. Quinlan and William Smith to act as ballot clerks, they were sworn to the faithful discharge of their duties by the town clerk.

The package containing the first set of ballots received from the secretary of the Commonwealth was then delivered to the presiding officer, as required by Sec. 206 of chap. 548 of the Acts of 1898, and his receipt taken therefor.

Cards of instruction and specimen ballots were then posted as required by law.

The ballot box furnished by the Commonwealth for use

at elections was publicly opened and showed to be empty. The box was then locked and the key given to George Twigg, the officer in attendance at the polls. The polls were opened for the reception of ballots at fourteen minutes past six o'clock in the forenoon, and were kept open until thirty-three minutes past four o'clock in the afternoon, when it was voted to close the polls.

At the opening of the polls the ballot box register stood at 000.

At eighteen minutes past three o'clock in the afternoon the ballot box was opened by the unanimous consent of the selectmen and town clerk, and three hundred ballots taken therefrom.

At the close of the polls the ballot box register stood at 364.

As the ballots were taken from the box they were audibly counted by the presiding officer and announced as three hundred and sixty-four.

The names on the list of voters used at the ballot box, which had been checked, were counted and the number found to be three hundred and sixty-four, which agreed with the number of names checked on the list of voters kept by the ballot clerks.

Henry Godfrey, Jr., Emery Coulter, William Walker and Michael J. Gilfoil having been appointed by the selectmen to act as tellers, they were sworn to the faithful discharge of their duties by the town clerk.

A canvass of all the ballots given was made by the election officers, as required by the election act of 1898, the blank forms furnished by the secretary of the Commonwealth being used.

Upon completion of the canvass, all the ballots given in therefor were sorted, counted, recorded, and were for the following persons, namely :

The attention of parents is called to the law relating to the registering of births. The present requirements are as follows:

Acts of 1897, Chap. 444, Sec. 6: Parents shall, within forty days after the birth of a child, give notice thereof, or cause such notice to be given, to the clerk of the city or town in which said child is born. * * *

Sec. 8. Any parent * * who neglects to give the required notice, or cause the same to be given, for ten days after it is due, shall for each offense forfeit not exceeding five dollars.

Attention of physicians and midwives is called to Sec. 3, Chap. 444, Acts 1897.

In accordance with the provisions of Sec. 17, Chap. 444, Acts 1897, the town clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

Respectfully submitted,

THOMAS SUTTON,

Town Clerk.

NEEDHAM, Jan. 1, 1902.

I have examined the above report and certify the same to be correct.

Amount paid to the county treasurer five hundred and thirteen dollars and sixty cents, for which receipts are on file.

H. S. WHITTEMORE,

Auditor.

REPORT OF THE

Sealer of Weights and Measures, 1901

The work in this department has been larger than heretofore owing to the recent law providing for the sealing of all milk jars free of cost to the owners. Sec. 1, chap. 369, acts 1900.

Being unable to devote the necessary time to this branch of the service, I appointed Ralph D. Gillette deputy sealer and he has attended to the sealing of all jars brought to the office that came within the required standard.

A large proportion of the milk jars filled in our town are sealed in the neighboring cities and towns where sealers are always in session and are paid an annual salary sufficient to enable them to devote all their time to the business. The town has thus been relieved of much expense.

The question of salary was not passed upon at the annual meeting in 1901 owing to the uncertainty as to the amount of business required to be done. Fees have been charged as in former years for the sealing of weights and measures and the receipts from that source, amounting to fourteen dollars, have been turned into the treasury.

I have paid the deputy twenty-six dollars for thirteen days' labor, the time consumed in sealing jars, and have

drawn from the treasury, with the approval of the selectmen, a sum sufficient to include that amount and the usual fees, amounting in all to forty dollars, as salary of this department for the year 1901.

Fees collected were as follows:

A. W. Walkup,	$1 00
Joseph Willett,	1 00
Oliver Crisp,	81
Henry Thomas,	25
G. Valente,	25
J. J. Whetton,	1 85
J. B. Bowmar,	78
Greendale Chemical Co.,	1 50
J. A. Tilton,	1 00
J. Centola,	28
A. L. Woodruff & Son,	1 52
T. J. Crossman,	1 37
H. A. Crossman,	1 15
H. N. Head,	25
C. J. McCormack,	25
Thomas Sutton,	74
	$14 00

About three thousand milk and cream jars were sealed.

THOMAS SUTTON,
Sealer of Weights and Measures.

TOWN OF NEEDHAM, MASS.

ANNUAL REPORT

OF THE

Selectmen and Overseers of the Poor

FOR THE YEAR 1901

NEEDHAM
THE CHRONICLE PRESS
1902

Report of the Selectmen and Overseers of the Poor.

To the Inhabitants of the Town of Needham :

A few words only are necessary preliminary to submitting the estimates of appropriations necessary to carry on the several departments under the jurisdiction of the Board of Selectmen and Overseers of the Poor.

The failing health of Mr. David F. Henderson, who had served the town as superintendent of streets for the four years just past precluded his re-appointment to the position which he had so long filled with good judgment, energy and executive ability.

Mr. Henderson died on the twelfth day of April, nineteen hundred and one, and it is but simple justice to say that in his death the town lost a public spirited citizen and a faithful servant.

The presence at his funeral of superintendents of streets of the neighboring cities and towns ,and members of the state highway commission was a testimony to his standing in the department to which he was devoted and a tribute to his memory as a worthy associate.

As successor to Mr. Henderson in the office of superintendent of streets Mr. David H. Livingston was appointed. Mr. Livingston was without previous experience in the

business of road building and the various duties and responsibilities which belong to the position, but his intelligence, good judgment, habits of observation and studious spirit together with a determination to excel both in planning and executing work recommended him to the Board and the results of the year's work, it is believed have justified the favorable forecast, and the experience has fitted him for increased usefulness in the same position in the future.

After a year of unusual dryness which continued through the winter, the spring rains came down with a copiousness which was disastrous to the roads so that instead of being able to commence at once with ordinary road repairs incident to usual wear, the department had to contend with washouts in all parts of the town which made "dangerous passing" in many places at the same time and caused much expense which under other conditions would have resulted in more apparent improvement However, until the time comes when all the roads in town are scientifically constructed with permanent gutters, washouts will occur and the unexpected will happen. Under the present financial conditions our progress must be slow but we have made progress in the direction of good roads and let us continue in the same line even though it may be slow.

Scarcely had the spring damages been repaired, when summer rains and cloud bursts devasted the streets and again much damage was done by the floods which tore up the roads and prevented work on improvements already planned, so that an additional appropriation was necessary to meet the extra expense. Therefore not all the improvements anticipated have been realized but something has been done and we believe the streets and roads generally are in fair condition. The town has now a good equipment for making and repairing roads, consisting of stone crusher, screen and steam engine connected, American

Champion Road Machine, street sprinkler, and a twelve-ton Buffalo Pitts Steam Road Roller so that all the appliances are at hand for doing work that is up to date.

As authorized by vote of the town at the meeting in September last the board has contracted with the State Highway Commission to construct a state highway from the junction of Webster street and Highland avenue to the Newton line to be completed on or before the first of July next for the sum of $ 5,340.

The County Commissioners have ordered a widening of Great Plain avenue on the north side from Highland avenue to Garden street by the taking of a strip of land twenty feet in width to be completed before August, 1, 1902, requiring the town to assume a part of the land damages.

South street from Chestnut street to Charles River street is in need of reconstruction and should be attended to at once. We recommend that at least a portion of the road be thoroughly made and all of it be so repaired as to be more suitable for travel than it is at present. As this road has been laid out by the County Commissioners and ordered built it would not be amiss if a special appropriation were made to construct the same.

To whatever extent or whenever South street is improved it should be done with crushed stone and an abundant supply of rock can be obtained all along the line. In this connection we take the opportunity to say that two or three stations for the crushing plant should be secured in different parts of the town where rock is abundant and gravel scarce, and platforms erected so that the machinery can be transferred from one station to another and turn out a supply accessible to the roads in the immediate neighborhood, thus making a great saving in cost of cartage, and securing more good road surface for the same outlay. When once these stations are secured it will be

found perfectly practicable to move the plant and much less expensive than to haul materials long distances. We recommend that this course be adopted.

For further information in regard to work done and suggestions of needed improvements and repair of ways we refer to the report of the superintendent of streets presented herewith.

Considerable concrete sidewalk has been laid in the villages and such as have been worn by long use, repaired.

We recommend that the policy of extending concrete walks by an annual appropriation, one half the expense being charged to abbutting estates, be continued.

The street lighting service has been very unsatisfactory for the greater part of the year owing to the unsystematic extensions that have been made and the addition of lamps without regard to the proper method of distribution.

To secure a proper service and return for the outlay for current, a re-arrangement for the series of lamps will be necessary. This will involve an expense of some two hundred dollars, but as the contract with the electric company does not terminate until October, 1903, it will be unwise to fail to provide such arrangement of lines as will secure full service. No further extension of lines should be made without conforming to the system of 60 lights in a series. Some action in regard to the matter of providing for street lights after the expiration of the present contract will be necessary at the annual meeting as the time remaining is none too long to discuss and prepare for renewed service.

In accordance with the instructions of the town the board appointed Mr. Denys Zirngiebel Jr. to be Inspector of Wires. He at once entered upon his duties and good progress has been made in systematising the attachments of the wires of the different companies and the removal of

abandoned and useless wires over our streets and buildings.

The peace and good order of the town has been maintained at its accustomed high standard and notwithstanding the large number of people of all classes and conditions which are daily brought into the town, landed and transferred to the different car lines during the warmer season of the year.

This service tests the patience and discretion of our police and the officers have proved themselves to be men of coolness, courage and courtesy.

The town is to be congratulated on the prevailing good health of the community, very few cases, if any, of contagious diseases having been reported and very few complaints have been made of sources of filth and untidiness. Such as the attention of the board has been called to have been abated without unnecessary delay or trouble.

As overseers of the poor we have only to say that the board has endeavored to discharge its duties with due regard to the interests of the town and the care of the unfortunate. The expenses of the department have been about the same for the past year and no great increase is anticipated although it is unsafe to predict.

We recommend the following appropriations:

Report of Inspector of Wires.

To the Honorable Board of Selectmen of the Town of Needham :

I find that a great many trees on Chestnut street, Highland avenue and Great Plain avenue are or are being injured by wires running through or against them, and recommend that 35-foot poles be substituted for all shorter poles on said streets.

I desire to recommend the reconstruction of street light system on Great Plain avenue between railroad crossing and Glover's corner.

Street light and town wires on Great Plain avenue between Chestnut street and Webster street, street light wires on Webster street between Great Plain avenue and Highland avenue, to be changed from old poles to telephone poles.

Old poles on Nehoiden street, on Central avenue between Glover's corner and Forest street, on Hunnewell street, Hillside avenue and Rosemary streets, to be changed for new poles.

Would also recommend the reconstruction of the street light wiring by installing service wires at places to relieve long lamp circuits.

I have inspected the following: E. B. Fowler's build-

ing, F. De M. Dunn's house, the Baptist church, Morse club house, Mr. Holman's house, C. A. Searcy's house, John Moseley's house.

Respectfully submitted,

DENYS ZIRNGIEBEL, JR.,

Inspector of Wires.

NORMAN MACKENZIE,

Police Officer and Keeper of Lockup.

Report of Superintendent of Fire Alarm.

To the Honorable Board of Selectmen of the Town of Needham:

I respectfully submit the annual report of this department for the year 1901.

I desire to call your attention to improvements in the system made by changing fire alarm wires on Great Plain avenue and Webster street to West street, Highlandville, from small poles to top of telephone poles.

The storms of the past few months caused the electric light wires to come in contact with fire alarm wires, to the detriment of the system, and occasioned a great deal of extra work making repairs, etc.

I desire to recommend the raising of fire alarm wires on Chestnut street and Central avenue.

Respectfully submitted,

DENYS ZIRNGIEBEL, Jr.,

Superintendent of Fire Alarm.

Report of Superintendent of Streets.

To the Honorable Board of Selectmen:

GENTLEMEN: — I submit the following report of the street department for the year ending Dec. 31, 1901.

The past season has been an unfavorable one for our streets, storms early in the season washing the hills badly; and the almost unprecedented storm of August injured the roads to such an extent that it will take a good while and a large outlay before they are in as good general condition as they were at that time.

Good men who are citizens have been employed, and they have been faithful and efficient in their work. Good teams have been hired and full loads carted.

The road-scraper has been used extensively, and to good advantage; large quantities of waste and used-up material were removed from the streets and gutters, and used wherever practicable in widening and for sidewalks. Several hills in the outskirts have been put in good condition by the scraper without the outlay which the expensive haul of gravel would have caused.

Particular attention has been paid to gutters and waterways, to facilitate the passage of surface water from the streets.

More than 2,000 tons of stone have been crushed; 1,500 tons have been used on our streets and sidewalks, and 600

tons are now at the crusher ready for use in the spring. The average cost of crushed stone was 40 cents per ton.

Concrete gutters have been laid in several places where gutters were badly needed. I think our experience with concrete gutters has shown that they are a desirable gutter, saving the hills from washing, being easy to keep clean, and showing but little sign of wear. I recommend their more extensive use on hills.

Nothing injures our macadam streets so much as continued dry weather. In dry times the surface loosens and is ground up easily by travel; the wind blows the dust away, and the road wears out rapidly. This can be prevented in a great measure by the use of the street sprinkler. I believe it will be economy for the town, and will add greatly to the comfort of those who use the streets, if provision is made to sprinkle some of the main and most travelled streets during the summer months.

I desire to call your attention to the condition of South and Charles River streets from Chestnut to Grove street. These streets have been dug up and occupied by the street railroad, and then dug up and a water main laid through them; now they bear but little semblance to streets, and are in places almost impassable. A large outlay will be necessary to put them in good condition.

That portion of Great Plain avenue known as the Long Causeway calls for immediate and extensive repair.

Great Plain avenue from Augustus Eaton's to the residence of Stillman Bowers — always a bad piece of road in the spring — was filled for 500 feet with 6 inches of crushed stone; the remaining 900 feet was filled with 8 to 10 inches of stone from Muller's pit; this was covered with gravel from Muller's, and surfaced with binding gravel from Hewett's pit, and rolled with the steam roller borrowed from the state, making a substantial job.

Linden street, 1,200 feet in length, was constructed. The lower part of the street was ploughed and from one to two feet of the surface removed, making a better grade. The subgrade was filled with stone from Hewett's, surfaced with gravel from the same pit, and rolled with the steam roller.

Webster street from George Wills' to Kingsbury street was filled with stone from Hewett's to a depth of 10 inches and surfaced with binding gravel from same pit.

Hillside avenue from Foley's to foot of hill needed repair badly. The roadway was widened, a concrete gutter was laid down the hill, gravel from Cornwall's was surfaced with Hewitt's gravel and rolled with the horse roller.

Central avenue from Noyes street to Nehoiden street. The roadbed was filled with 6 to 8 inches of small stones from Hewett's pit, covered with gravel from same pit and rolled with the horse roller.

Highland avenue from Hunnewell street to Webster street. The surface was loosened and the roadbed was shaped with the road machine; 6 inches of graded crushed stone was spread and rolled in courses with the new steam roller purchased by the town.

The number of tons of crushed stone used was 680.

Cost of crushed stone, $272.00.

Cost of teams and labor, $358.00.

In September the town appropriated $400 to relocate and widen High street. The work of widening entailed the removal of several stone walls; some were removed entirely, and two were rebuilt on the new line. The banks on the Low and Beless estates were regraded in a satisfactory manner, and a good gravel sidewalk was built the entire length of the street, adding greatly to its appearance. Appropriation, $400; expenditure, $396.75.

Great Plain avenue from the residence of Curtis McIn-

tosh to Central avenue, a street which was well built of crushed stone twelve years ago and has had no repairs since, was badly worn, hollowed and rough. Five inches of crushed stone was spread and rolled with the steam roller; this was surfaced with screened gravel from Hewett's and rolled. A distance of 1,200 feet was repaired, when work closed for the season. The remainder of the distance to Central avenue should be completed the coming season.

The following amounts were spent on the streets:

Report of Agent of Board of Health.

To the Board of Health:

GENTLEMEN: It is a pleasure to make my report for the year ending Dec. 31, 1901. There have been but two cases of contagion reported in the town for the entire year, one typhoid fever at Needham and one of diphtheria at Highlandville.

This is without doubt the cleanest record the town has ever had, and probably cannot be equalled by any town in the state. It speaks volumes for the healthfulness of our town.

NUISANCES.

There have been fewer cases, and with one exception, a pig nuisance, all have been easily disposed of. This particular one has now been abated satisfactorily.

GEORGE TWIGG,

Agent Board of Health.

TOWN OF NEEDHAM, MASS.

SIXTEENTH ANNUAL REPORT

OF THE

Chief of the Fire Department

FOR THE YEAR ENDING DEC. 31, 1901

NEEDHAM
THE CHRONICLE PRESS
1902

Report of the Chief of Fire Department

FIRE DEPARTMENT HEADQUARTERS,
NEEDHAM, MASS., Dec. 31, 1901.

To the Honorable Board of Selectmen:

GENTLEMEN: — I herewith submit my eighth annual report, and the sixteenth annual report of this department. It includes a record of all alarms and fires, also the origin thereof, the value of the property endangered, amount of insurance carried, estimated loss, amount of insurance paid, amount of insurance at risk, and assessed value of real estate at risk.

ALARMS.

Total number of alarms was twenty-seven (27), two (2) second inclusive, an increase of two more than last year.

Bell alarms,	21
Still alarms,	2
Telephone calls,	2
Verbal alarms,	2
Total,	27

ORIGIN OF FIRES.

Explosion of oil stove,	1
Defective flue,	1
Persons burning brush and grass,	2
Locomotive sparks,	3
Set by children,	5
Bed clothing catching fire,	1
Gunning in woods,	1
Unknown causes,	9

Out of this number of fires three (3) were in buildings, one (1) for lunch wagon, nineteen (19) were for wood and grass fires. Total, twenty-three (23) fires.

BUILDINGS WERE DAMAGED AS FOLLOWS:

Partially destroyed,	1
Slightly damaged,	1
No damage,	1
Total,	3

VALUE OF BUILDINGS AND CONTENTS.

Buildings,	$10,200 00
Contents,	2,000 00
Total,	$12,200 00

LOSS ON BUILDINGS AND CONTENTS.

Buildings,	$3,091 00
Contents,	605 00
Total,	$3,696 00

INSURANCE ON BUILDINGS AND CONTENTS.

Buildings,	$5,200 00
Contents,	900 00
Total,	$6,100 00

INSURANCE PAID ON BUILDINGS AND CONTENTS.

Buildings,	$3,091 00
Contents,	600 00
Total,	$3,691 00

MISCELLANEOUS.

Number of hours' service,	457
Number of feet hose laid,	4,950
Number of feet ladders used,	125
Number of extinguishers used,	17

APPARATUS.

The apparatus in service is the same as reported last year. It is in good condition, with the exception of hose wagon No. 2, which will require a new set of hind wheels this spring. I would recommend that Nos. 1 and 2 be equipped with heavier wagons with 2-horse hitch, and locate the wagons now in use at the outlying sections. The extension of the water to Charles River Village renders practicable the establishment of a fire station in that section, with a full equipment of hose.

HOSE.

There is four thousand (4,000) feet of serviceable hose in the department, divided between the four companies; also five hundred (500) feet on Grove street that is practically worthless, five hundred (500) feet between Hose 1 and 2 that is very nearly worn out and ought to be replaced; and I would recommend that one thousand (1,000) feet be purchased this spring.

FIRE ALARM.

The establishment of a signal box in the vicinity of the high-school building, also at Dedham avenue and South

street, would add greatly to the efficiency of the service. I would recommend one placed at each of the above locations. I have also been asked by a number of citizens to have one at Highland avenue and Webster street, also one at Rosemary and Webster streets, as the nearest box in either case is at an inconvenient distance.

I would recommend the following appropriations for the coming year:

Maintenance Fire Department,	$1,000 00
Engineer's salary,	156 00
Incidentals, Fire Department,	300 00
New hose, Fire Department,	600 00
For repairing hose wagons,	50 00
Fire-alarm signal boxes,	400 00
Total,	$2,506 00

In closing, I desire to thank the officers and members of this department for their faithfulness to duty at all times. To the honorable Board of Selectmen, and, in fact, to the heads of all departments, for their generous support, I extend many thanks.

Respectfully submitted,

H. A. KINGSBURY,

Chief of Fire Department.

TOWN OF NEEDHAM, MASS.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

FOR THE YEAR 1901.

NEEDHAM
THE CHRONICLE PRESS
1902

Report of the School Committee.

But little need be said by the School Committee in regard to the schools of the town, in addition to the report of the Superintendent, herewith submitted.

To show how the value of the public schools is rated throughout the State, we beg leave to quote from the inaugural address of Governor Crane, January, 1902:

"Upon the public schools, more than upon any other agency, depends the welfare of the Commonwealth. Their contribution to this welfare justifies the large sums annually expended upon them."

Here is a clear and concise statement from high authority of the value of the public schools to the State, and also the recognition of the fact that the people understand it, from their readiness to grant large sums of money for their support. If such a high estimate can be made of their value to the public, how much more can be said of their inestimable value to the individual.

Our own town, by her liberal appropriations, is a remarkable example of how much interest the citizens take in the education of their children.

The average cost of the education of each child in Massachusetts is $34.91, taken from the latest returns received by the State Board of Education, and is based on the average membership of all the public schools. In Needham, for the year 1901, the average cost per pupil

was $26.78. If repairs be excluded, it was $25.56.

The Committee have been very conservative in asking for more money each year, and in the expenditure of that entrusted to their charge. They have not asked for money for the introduction of the kindergarten, manual training, physical culture, sewing and cooking, not because some or all of these subjects would not be good and useful ones to have in a school curriculum, but partly because of the additional burden it would put on the taxpayers at a time when the town is not rich enough to afford it, and partly because it does not seem so necessary to have them taught in a suburban town, where parents have more time to devote to home instruction, as in a crowded and thickly settled city.

The attention of the Committee has been directed almost entirely to the essentials of education. The school authorities have been unsparing in their efforts to obtain the one thing most essential to good schools, — good teachers. That they have succeeded has been shown by the good results of their teaching, and also in the fact that nearly all of those who leave us, almost without an exception, go to nearby towns and cities at salaries much larger than we can possibly afford to pay.

By the slight increase in salary made during the past year our grammar-grade teachers now receive $500 per year, and the primary $460.

At this price we obtain a good teacher, and we acknowledge our corps as efficient; but we have not yet been able to find a device for keeping them from going away, after two or three years' service, to other places for the larger salaries mentioned above. We have only two special teachers, one in music at $250 per annum, and one in drawing at $200.

Owing to an unforeseen increase in the number of pupils in the Kimball school at the beginning of the school year

in September, the Committee were obliged to secure an additional teacher. This extra expense, together with $197.48 increase in cost of fuel over that of 1900, made a deficit of $212.38, when with the same conditions as in the previous year we should have had a surplus as in that year.

For the year 1902, the Committee recommend an appropriation of $18,000, together with the tuition of non-resident pupils.

The Committee would call the attention of the town to the desirability of having a fire-alarm box placed on the high-school building, or, possibly better, on the street opposite. This building is the most valuable one in the possession of the town, and at the present time it contains the public library and other valuable property.

JAMES B. LESTER,

School Committee.

Report of the Superintendent.

To the School Committee of Needham:

The year covered by this report coincides with the fifth year of my service as superintendent of the Needham public schools. The time is appropriate for noting changes, growth and progress during the five years. In this connection, I am pleased to express my appreciation of the many courtesies which I have experienced and of the numerous evidences of esteem that have come to my notice. These are the little things that make the past an agreeable memory, the present a delightful reality, and the future a hopeful anticipation. I wish also to record my failure to call to mind a criticism or other act that has left its sting or that awakens unpleasant thoughts.

COMPARATIVE STATISTICS.

	1896.	1901.
Total expenses for the year,	$14,317.85	$18,165.01
Received from state aid,	185.35	0
School census,	617	678
Average membership,	631	678
Average attendance,	581	616
Average cost per pupil,	$22.69	$26.78
Number pupils at close of year,	662	687
High School pupils at close of year,	59	65
Number teachers employed,	21	24

	1896	1901
College graduates employed,	2	5
Normal graduates employed,	3	6
Teachers with normal training,	2	2
Number of school buildings,	6	7
Number of class-rooms in use,	16	21
Salaries of primary teachers,	418	460
Salaries of grammar teachers,	456	500

These figures indicate the material prosperity of the town and of its schools. The loss of state aid shows that Needham has passed into the list of towns considered able to support its own schools. The figures relating to school attendance indicate gain in population and continued popular confidence in the public schools. The increased total expenses, the increased number of teachers and the increase of salaries show that the public purse has responded to the needs of the schools, and has contributed toward raising the standard of qualification demanded of our teachers as shown by the larger number of teachers with college and normal training. The figures show an increase of one school building, but they fail to show the cost of that building, its beauty, or its adaptation to the purpose for which it was designed. They do not show that in erecting the High School building the town provided proper facilities for high school instruction, relieved the crowded Kimball school, made possible great improvement in the administration of the Kimball, and furnished an excellent temporary home for the long-suffering public library. Nor do the figures show the opinion of the Secretary of the State Board of Education, when he said that he knew of no town of equal resources which had an equally desirable high school building, and that he knew of no school house of equal value that had been erected at so little expense.

The figures showing the increased number of school-

rooms in use do not show the improvement resulting from the introduction of adjustable school furniture in response to the increasing appreciation that children need proper hygienic conveniences. Of equal hygienic importance, and not shown by the preceding statistics, is the instalment of modern heating ventilation and sanitation in the Avery and Kimball schools.

Other improvements of a material nature during the five years are the introduction of a considerable quantity and variety of good reading material; the donation and purchase of a few reference books and maps; the better equipment of the laboratories; the electric clock system, presented by the late Mr. F. P. Glover: and the addition of pianos, pictures, statuary and school library books, either given by friends or purchased from the proceeds of entertainments. These material advantages of the schools mark commendable activity and generosity, not only on the part of the school committee, but also by teachers, graduates and other friends of the schools. Worthy of notice is the fact that much expense, not yet generally recognized as falling within the scope of public appropriations, may properly be incurred for the good of the public schools. Here public spirit often leads to private generosity, and the schools rejoice in the good things that speak so highly for culture during the susceptible period of childhood. It may further be noted that these good things do not come by chance. They do not come until some active mind or generous heart sets in motion the agencies that culminate in the raising of money.

Proof that the schools have progressed on their intellectual and moral side is less easily produced. It is hard to measure the graduate of 1901 with the graduate of 1896. It is perhaps impossible to say that the twelve-year-old boy of to-day is nearer the goal of symmetrical development

than was the twelve-year-old boy who welcomed the coming of Christmas five years ago. Possibly pupils of to-day are no more nearly qualified for useful and law-abiding citizenship than were their predecessors in 1896. The troublesome boy is always with us and the troublesome girl is not a stranger. Dull pupils, idle pupils, thoughtless pupils, careless pupils, discouraging pupils of all sorts, continue to remind us of the value of patience. But our schools as a whole are places of industry, obedience, health, happiness and progress, and we believe that the development of the children has kept pace with the material improvement of their surroundings.

Of the twenty-one teachers employed in December, 1896, only seven are now serving the town. To maintain the requisite teaching force, thirty-two new teachers have been set at work. Of these, fifteen are no longer employed. In other words, five years have witnessed the departure of twenty-nine teachers and the continuous retention of only seven. Changes of teachers have occurred in all the schools except the Dwight and the Harris.

Other towns may have had a similar experience; it may be an inevitable experience, but it is no less an unfortunate experience. The schools have suffered little from some changes and have gained by a few; but whenever a competent teacher surrenders her position, the schools suffer a temporary loss, even when her successor is found to be equally competent. Sickness, matrimony, incompetency, and a few other causes produce justifiable changes; but changes due to unsatisfactory conditions of employment, want of official and parental support, inadequate salaries and other avoidable causes should be reduced to very low limits. In Needham, many conditions of employment are favorable. During the year 1901, only four teachers had an average membership exceeding forty pupils, and only one

teacher had an average attendance exceeding that number. The relations of teachers with their superiors are of a pleasant nature, parents have been generally sympathetic and helpful, and the conduct and ability of the children are, in general, quite up to the standard of other towns. Vexatious rules and regulations and time-consuming compilations of statistics are avoided. Wearisome piles of examination papers are not required. Official meddlesomeness with details and unnecessary restriction in the choice of methods are not making the lives of teachers burdensome. Considerable liberality is shown in the supply of the requisites for successful instruction. Little, therefore, remains, except further equipment with school paraphernalia and high salaries, to check the departure of approved teachers to other fields of school work. Even in the matter of salaries progress has been made, and teachers have evidence that this town, although unable to compete with the great centres of wealth, will not be the last in the race for teachers of commanding ability.

The outcome of four annual town meetings has been the re-election of members of the school committee. At one election a new member was chosen. Your superintendent has therefore served with only four members, and has appreciated the public spirit that prompts them, at the sacrifice of personal interests, to devote many days of financially uncompensated service to the schools of this town.

THE HIGH SCHOOL.

In the annual report for 1900, allusion was made to unfortunate school tendencies with which High School teachers are often confronted. Credit is due to our teachers for their constant efforts to improve the moral and intellectual tone of our own school. Good results are in evidence.

During the summer vacation, to the surprise and regret of the committee and superintendent, Mr. Fletcher was called to an important position in a large manufactory. Our good wishes followed him to Marlboro, but fear that his good work would be interrupted, intensified our regret at the loss of a good teacher and an esteemed friend.

From a large number of candidates whose records were carefully investigated by the superintendent, a considerable number were invited to meet the committee. Mr. Harold W. Loker was unanimously elected to succeed Mr. Fletcher, and entered upon his duties as principal at the opening of the school in September. Mr. Loker brings to his work an education received at Harvard, an experience gained as a teacher in a city high school, a vigorous temperament, a capacity for hard work, and an ability to get results in scholarship.

Mr. Loker is assisted by Miss Jacobs and Miss Walker, both of whom began work with him. Miss Jacobs came from several years of successful experience in Winchester and Groton. Miss Walker came with less experience, but she had made favorable impressions elsewhere. Harmony and co-operation among these teachers are manifest, and the outlook for the school is exceedingly hopeful.

In June, a class of six boys and six girls is expected to graduate. They claim the distinction of being the first graduating class whose high school experience has been limited to the new building.

THE AVERY SCHOOL.

After two years' service as principal of the Avery School, Mr. Charlton D. Miller resigned to accept a similar position in Newton at a salary twice as large as he received here. Competition under such conditions was impossible, and it was necessary to accept his resignation.

The circumstance is worthy of notice, as indicating the care taken to secure for this town teachers capable of showing to out of town committees ability worthy of higher salaries than Needham can pay. It is better to employ a teacher of Mr. Miller's ability, even for the short period of two years, than to put schools in charge of teachers whose ability is less and who show no evidence of increasing power.

Acting upon this principle, the committee elected a successor to Mr. Miller. Mr. Louis J. West, the new principal, entered upon his duties at the opening of the fall term. Mr. West is a graduate of Harvard College and of the Bridgewater Normal School. His excellent preparation for teaching, and his successful experience elsewhere, enabled him to assume his duties here with a confidence which results seem to justify.

Miss Jennie M. Locke, having fully justified the confidence of those responsible for employing her in the Avery first primary, was also called to teach in Newton. She was succeeded at the opening of the schools in September by Miss Lillian E. Smith, a graduate of the Bridgewater Normal School and a teacher of experience. Miss Smith has the confidence of her superiors, and is contributing toward the present successful administration of the Avery school. It is worthy of notice that five of the six teachers of this school are normal graduates, one of them being also a college graduate.

THE DWIGHT SCHOOL.

This school remains in charge of teachers who have become thoroughly acquainted with its history and its needs. Its graduates take their places in the ninth grade of the larger schools and maintain a rank not inferior, as a rule, to the rank of the pupils with whom they become associated.

THE ELIOT SCHOOL.

At the close of the fall term, Dec. 20, 1901, this school had a membership of six pupils more than at the corresponding date of the previous year. A few weeks before Christmas, sickness compelled Miss Eberhardt to remain at home. Miss Bertha Ruggles, an experienced teacher, living near the school, was called in as a substitute. Miss Eberhardt is slowly recovering, and her speedy return is desired. It is proper to recognize the energy, enthusiasm and reasonable success with which the difficult duties of a substitute are being performed.

At the opening of the current school year the transfer of eighth-grade pupils to the Avery school was contemplated. Several parents objected and the pupils were allowed to remain at the Eliot.

THE HARRIS SCHOOL.

For more than a year eighth-grade pupils of the Harris district have been allowed to attend the Kimball school. The pupils and their parents have appreciated the opportunity. Little need be said to demonstrate the superior advantages these pupils enjoy by association with a large class which receives half of the attention of the Kimball principal. Even Miss Glancy, with her long and successful experience in a school of eight grades, cannot hope to give a few eighth-grade pupils instruction equal to the instruction given by an equally successful teacher whose energy is concentrated upon two grades.

Furthermore, the value of separating pupils of the primary and grammar grades deserves notice. The training necessary for eighth-grade pupils differs widely from the training adapted to children of the primary grades. At best the school of many grades is a compromise, an effort to do creditably what cannot be done properly. Children

surrounded by other children of equal age are unconsciously getting the benefit of the combined culture and training of their companions. Associating with children who are all of lower grades, they tend to be retarded in general culture, however proficient they may become in mere book knowledge.

Parents living in the Eliot district may hereafter willingly avail themselves of the privileges now accepted and appreciated by the parents of eighth-grade pupils whose homes are in the Harris district.

THE KIMBALL SCHOOL.

The last annual report showed that the membership of the Kimball school, Dec. 21, 1900, was thirty-one larger than the membership reported the previous year. Dec. 21, 1901, a further increase of twenty-one pupils was included in the Kimball membership. The increasing pressure upon the intermediate grades made it necessary to separate the fourth and fifth grades soon after the opening of the school year. Sept. 23, 1901, Miss Howard, who succeeded Miss Conner early in June, was placed in charge of the fifth grade and Miss Foss was assigned to the fourth grade by transfer from the Parker school. By this arrangement the grading was much improved and the crowding of two schoolrooms was removed. Each of the first five grades now receives the undivided attention of a teacher. The remaining four grades are taught by two teachers, to each of whom two grades are assigned.

Near the close of the third term, Miss Conner accepted a desirable position in the public schools of Boston. At the close of the school year Miss Melcher was called to teach in Watertown. These teachers were receiving the maximum salary paid by Needham, and their services could not be retained. When Watertown, Newton and

Boston make a raid upon our town during one year, no better evidence is needed to show the difficulty of keeping skilful teachers here. Although disheartened, however, again and again, by the resignation of teachers, the Committee and the Superintendent can find no line of service wherein they can better guard the school interests of this town than in the careful selection of new teachers to take the places of those who pass on to higher salaries.

THE PARKER SCHOOL.

The small attendance at this school demands carefnl consideration. The following statistics are instructive:

	1898	1899	1900	1901
Average membership,	29.7	29.2	21.2	18.6
Average attendance,	27.4	27.5	19.4	16.7
Membership in Dec.,	30	21	18	11
Cost per pupil,*	21.93	22.94	31.48	32.75

* Based on average membership.

The membership data for the close of the years show a continuous and rapid falling off in numbers. The cost per pupil has increased 49.3 per cent. The cost per pupil at the Kimball school for the year 1901 was $21.62.

In the Superintendent's last annual report, the benefit of consolidating the Parker and Kimball schools was pointed out. It is unnecessary to repeat the argument. I refer to the matter simply to notice that nearly all of this great expense at the Parker school might have been saved and that its pupils might have received the better advantages of the Kimhall, where the per-capita expense was $11.13 less.

The figures showing the cost per pupil include teaching, supervision, janitor, fuel, ordinary repairs, and all other expenses except the cost of books and other sup-

plies furnished to the pupils. These are not included because in both schools the cost per pupil is approximately the same. The expense of supervision and special teachers has been included on a pro rata basis. Strictly considered, the cost in so small a school is much greater than the pro rata computation indicates. The work of a teacher in charge of forty pupils can be inspected by the superintendent in as little time as is required by a school of eleven. Furthermore, there is a greater loss of time in passing from a remote one-room building to another building than in passing from room to room in a large building. A special teacher also works under similar conditions re garding time, distance, and number of pupils.

If the eleven pupils now in the Parker school were assembled at the Kimball, the entire amount now paid for the salary of the regular teacher, for janitor, for janitor's supplies and for fuel would be saved. The eleven pupils would be assigned to carefully graded classes. No class at the Kimball would receive an addition of more than three pupils — an addition too small to be an appreciable burden upon the Kimball teachers, although productive of untold advantages to the pupils so added. At the same time the special teachers and the superintendent would be able to employ in other schools the time now devoted to the Parker.

On the other hand, the new expense to the town would be the almost insignificant expense of twenty-five cents per week (assuming perfect attendance) for conveying each of the eleven pupils to the Kimball school. Is there a rational basis for hesitation in this matter?

The purpose of these remarks is not to deprive the pupils of the Parker district of advantages equal to those enjoyed by other pupils. It is to ask for them the best advantages that the town can give. It is to put them in

charge of teachers especially adapted to certain grades and able to concentrate their efforts upon those grades. It is to give the children the intellectual, social and moral uplift that comes from association with large numbers in a well-conducted graded school. It is to remove them from their present comparative isolation, with its tendency toward stagnation, into an environment teeming with life and progress.

It is no detriment to a rural community to lose its little school. The closing of the school is an inducement to parents who wish to live away from villages but who will not submit their children to the disadvantages and discouragements of rural schools. Evidence is not wanting that when the system of conveying children has been adopted, new life has come to sparsely settled districts in which schools have been closed. Riding upon electric cars is less dangerous to children than walking along the highways through which the cars pass. Under suitable regulations of the school committee, pupils can be protected and properly disciplined during the noon intermission. Conveyance of children has passed the experimental stage and has become a prominent and successful feature in the progress of the rural schools of this Commonwealth. After its adoption by any community, the wonder is not that it has been adopted, but that its adoption was so long delayed.

CONCLUSION.

The official service of two members of the school committee began before the election of the present superintendent. No public honor appeals more strongly to a public-spirited citizen than election to the school committee. Gratuitous service brings its own reward, and Needham illustrates the love which members of school committees

often feel for their work. Five years of service in this town, although given primarily for pecuniary considerations, have brought your Superintendent to a partial appreciation, at least, of your own feelings and to no small participation in your affection for them and your pride at their prosperous condition.

Respectfully submitted.

Report of the Trustees of the Public Library.

The Needham Free Public Library has increased in usefulness and in importance during 1901.

Our efficient librarian has suggested to the trustees that a portion of the stack room be arranged as a reading room for the children, and that literature appropriate for their use be placed there on tables and in special book-cases. This most desirable improvement involves considerable work for the librarian, but she cheerfully undertakes it.

The trustees have decided to have our library join the association organized for the purpose of displaying in different libraries, from time to time, fine collections of instructive photographs. If one or two more large rooms could be devoted to library uses in Needham, much might be done that would give pleasure to the citizens and be of assistance to the young people, but enterprise is limited by conditions.

The trustees have only words of praise for our devoted librarian, Mrs. Dunn, who has rendered the town most valuable service, much of it without compensation.

Respectfully submitted for the Trustees,

GEORGE K. CLARKE.

Quite a valuable gift of bound and unbound magazines, covering several years, has been presented to the library through the kindness of a member of the Massachusetts Library Association.

For the benefit of persons who do not frequent the library it seems advisable to state through this report that special arrangements are made for the benefit of teachers, students, study classes, and individuals who may be pursuing special courses of study, by which they may borrow and retain for one month, without renewing, from one to six books, outside fiction, with the possible exception of some books which may be at the time in great demand.

Twelfth Annual Report of the Water Commissioners.

To the Inhabitants of the Town of Needham, Massachusetts : —

The board of water commissioners herewith submit their twelfth annual report, for the year ending December 31, 1901.

At the annual town meeting in March, Mr. Frederic G. Tuttle, was elected water commissioner for three years.

The board organized by electing Mr. Edmund G. Pond chairman and appointing George A. Adams clerk.

EXTENSIONS.

The water main has been extended in Greendale avenue from Great Plain avenue to the residence of Mrs. Charles Blackman, and from the intersection of High street to Cheney street. In Meadow street from Great Plain to Greendale avenue. In Marked Tree road from the intersection of Curve street southerly 1165.5 feet. In Central avenue from Charles River street to the "Sumpter Farm." In Fisher street from Central avenue to the house owned by the Walker-Gordon Laboratory Company. In High Rock street from South street to the house owned by Mr. Redington Fiske. In South street from Chestnut street to

the "Waban Mills" and in Charles River street from South street to the property of Mr. C. H. W. Foster. We intended to continue along Charles River street and connect with the main in Grove street, thereby supplying water to that section of the town which has heretofore been supplied by the town of Wellesley. As the main in Grove street belongs to the town of Needham, there seems to be no reason why it should not be connected with the rest of the system, and not only receive the water rates on the line, but also save the yearly hydrant rental that is paid to the town of Wellesley for water supplied. The frost in the ground prevented us making the connection this fall, although the pipe is laid within one thousand feet of Grove street, and this will be laid as soon as the frost leaves the ground in the spring. For length of pipe laid see Superintendent's report.

PIPE.

The first contract for furnishing pipe and specials was awarded to the United States Cast Iron Pipe and Foundry Co. at $24.70 per gross ton for pipe, and $2.25 per cwt. for specials. The second and third contracts were awarded to R. D. Wood & Co., the price being $24.20 per ton of 2,000 lbs. on the first, and $24.70 on the second, and $2.50 per cwt. for special casting on both.

PIPE LAYING.

The contract for laying pipe was awarded to the C. H. Eglee Co. of Boston, at the following prices: 19 cents per running foot for 6-inch, 25 cents for 8-inch, and $3.00 per cubic yard for rock excavation, on the first, and 25 cents for both 6- and 8 inch and $3.50 per cubic yard for rock, on the second.

BONDS.

Six thousand ($6,000) dollars of matured bonds were refunded by the town as per vote.

The outstanding bonds mature as follows:

1902,	$6,500
1903,	6,500
1904,	6,500
1905,	6,500
1906,	6,500

PART II.

TOWN OF NEEDHAM, MASS.

ANNUAL REPORT

OF THE

ASSESSORS

FOR THE YEAR 1901.

NEEDHAM
THE CHRONICLE PRESS
1902

Assessors' Report.

As a preface to the usual summary of valuation, etc., your Assessors would submit a brief written report. Almost immediately after the election in March last, Mr. David H. Livingston, the only member of our board who was in office the previous year, was appointed Superintendent of Streets, and he immediately entered on the duties of his new position, so that the entire labor connected with assessing the taxes has devolved on the two remaining members.

Feeling that the time had come when it was almost imperative to make a general revision of values, it was thought best, inasmuch as there was no available appropriation for engineering expenses and plans, to make sketches of all the lands in town, in order to have some guide in adjusting the new schedules. Considerable time was devoted to this preliminary work, and there are now on file, rough plans, drawn without any attempt at a scale, which give a tolerably correct idea of the location of nearly every piece of land in Needham. We have found these plans, crude as they are, of very great service, and are convinced that the time was profitably spent in their preparation.

Our predecessors had made beginnings in assessing in lots, some of the various tracts which have been opened up for sale within recent years; but so numerous had the

transfers become, that the only safe way seemed to be to assess, by lot number, every tract of which there was a plan of record. This greatly increased the clerical labor, but the gain in the total tax levied on the whole tract, even at the low appraisal made of each individual lot, more than compensates for the outlay.

Following the instructions of the Tax Commissioner, we made special efforts to obtain returns of personal property, and feel gratified to be able to say that more statements were received than in any previous year.

We hope that hereafter our citizens will realize the importance of these returns. We cannot but feel that even in Needham there is still a large amount of invisible personal property which is taxable, and of which the assessors can have no knowledge, except by the voluntary statements of its possessors. When every citizen will do his or her duty in this respect, the tax rate of the town will be materially lowered, and the real-estate owner, whose entire property is in plain sight, will not, as now, be made to bear such an undue proportion of the town expenses. Blanks for these returns are prepared each year by the Tax Commissioner, and can always be had on application to the Assessors.

The clerical work of the department is constantly increasing, not alone in the preparation of the records and computation of the taxes, but correspondence with property owners, attorneys, banks, mercantile agencies and the like make almost daily demands on the time of the chairman or secretary throughout the year, for which there is no compensation; and it would be but simple justice if some allowance beyond the minimum statutory daily stipend should be provided.

G. W. TISDALE,
Chairman.
